

## SPECIFICATIONS

|                           |                                                                |
|---------------------------|----------------------------------------------------------------|
| <b>Model Name</b>         | B360-F PRO                                                     |
| <b>CPU Support</b>        | Supports 8th Gen Intel® Core™ / Pentium® / Celeron® processors |
| <b>CPU Socket</b>         | LGA 1151                                                       |
| <b>Chipset</b>            | Intel® B360 Chipset                                            |
| <b>Graphics Interface</b> | 1 x PCI-E 3.0 x16 slot                                         |
| <b>Display Interface</b>  | HDMI™, DVI-D                                                   |
| <b>Memory Support</b>     | 2 DIMMs, Dual Channel DDR4 up to 2666MHz                       |
| <b>Expansion Slots</b>    | 17 x PCI-E x1 slots                                            |
| <b>Storage</b>            | 4 x SATA 6Gb/s ports                                           |
| <b>USB 3.1 Gen1</b>       | 4 x USB 3.1 Gen1                                               |
| <b>USB 2.0</b>            | 6 x USB 2.0                                                    |
| <b>LAN</b>                | Intel® I219-V Gigabit LAN                                      |
| <b>Audio</b>              | 8-Channel(7.1) HD Audio with Audio Boost                       |
| <b>Form Factor</b>        | ATX                                                            |

## FEATURES

### Mining Guard

Power/Reset/Clear CMOS Buttons on Board for managing your mining board without screen on

### Intel LAN

Premium network solution from Intel® for professional and multimedia use. Delivers a secure, stable and fast network connection.

### Mining Management

MSI mining motherboard featuring customized Mining BIOS and built-in slot detection. Auto detect your PCIe slot status and manage your mining rig with just one glance

### Diskless Boot Supports

With diskless boot environment, miners don't need maintain the operation system for each mining machines and save the money from the hard drives.

### Mining LED

Featuring mining LED for each PCIe slot on the mining motherboard, you can check the status for each GPU by only spot the motherboard.

### 5 x Power Sync

Supports up to 5 power supply to deliver power for your motherboard and GPUs

### Super Mining Machine

Support 18X graphic cards for more hash. Give you the easiest and the most convenient solution for your mining rig.

### Independent Slot Power

The 18 PCIe slots are grouped into two distinct zones; each slot can be enhanced for better signal and more stable voltage.

### EZ Debug LED

Easiest way to troubleshoot.

## CONNECTIONS

1. Ez Debug LED
2. PS/2 Combo Port
3. DVI-D Port
4. HDMI™ Port
5. USB 3.1 Gen1
6. LAN Port
7. USB 2.0 Port
8. USB 2.0 Port
9. HD Audio Connectors
